

A lot has changed over the last year or so.....Technology marches on and Your Business needs to keep up. Why not take some time to get updated from experts in the field and at the same time enjoy a catered lunch from Antipastos!

You're Invited To: JBM's Technology Lunch 'n Learn

When: Friday March 8th , Sessions begin at 9:30 am.

Where: JBM Office Systems, 19 Hiscott St., St. Catharines

Session One: 9:30 am.

Paper Documents Are the Bottleneck!
Speaker: Michael Cochi, Square 9 Softworks

Document Management Solutions come in many flavours today depending on unique customer needs. You may only need a simple, yet powerful advanced capture solution to address a common workflow solution. Perhaps you have a multitude of forms that need to be digitized to become more intelligent. Or maybe you're considering a complete workflow solution for your sales order process to close the gaps in performance. Whatever your needs may be, our document management consultants can help. From accounts payable solutions to HR lifecycles to mobile proof of deliveries, we are here to guide you along the way!

Session Two: 11:00

How Smart is your Office Equipment?
Speaker: John DeCiantis, Ricoh Canada

Leading Manufacturers have been making great strides in enhancing the usefulness of the old 'Copier'. Today, there is an entire EcoSystem built around the MultiFunction Product (MFP). We have entered the age of the **Intelligent MFP!** You can now easily connect to Cloud Services for printing and scanning, connect to content management software, connect to Interactive Display panels and overhead projectors for sharing and collaboration. Mobile printing is now a standard offering and FREE Smart Connect APPS tie them all together. Security has been hardened. Customization enables worker productivity improvements and the list goes on. **Come and see why now is the time to upgrade to an Intelligent MFP!**

Catered Lunch from Antipastos! 12:30 to 1:30

Session Three: 1:30 pm.

Cybersecurity Trends in 2018.
Are You Prepared?
Speaker: Bill Laverty, Datto

2018 set new records for **Ransomware attacks** and industry pundits forecast 2019 to be even worse. Fortunately, there are **Business Continuity Solutions** that can minimize the risk and help to keep you compliant with new PIPEDA legislation. Today, Data is the lifeblood of most companies and keeping your data safe is a major concern for all SMB customers. This session will enlighten you as to the risks, the options and the new technology available to help your business when disaster strikes.
