Commercial Mail Processing Made Easy

Meet Neopost's IS-5000 mail processing solution.

The IS-5000/6000 was designed to meet the demanding needs of high volume commercial environments. Its intuitive features, like the iWeigh Dynamic Scale, dramatically reduce mail processing time and simplify operations. The built-in four-point detection system is patented to automatically weigh and measure the full dimensions of your mail, accurately applying postage at speeds of up to 90 letters per minute.

Neopost and Bullfrog Power®

Neopost is proud to be partnered with Bullfrog Power, Canada's leading green energy provider. By choosing Bullfrog Power's green energy for all our Canadian facilities, Neopost is reducing its environmental impact and supporting the growth of green energy projects in Canada.

This multi-year partnership will also see Bullfrog Power's generators inject 100% green electricity back into the grid to match the power consumption of all Neopost mailing systems installed at new customer locations. Mailing systems powered by green energy are a first for the industry in Canada and demonstrate Neopost's commitment to include all stakeholders in its sustainability efforts.

Mix it up; the IS-5000 will sort it and seal it

Do you need to process envelopes of different sizes, shapes, thicknesses and weights?

No Problem. The IS-5000's Load'n Go True Mixed Mail Feeder eliminates the need for hand sorting your mail.

Simply place your envelopes of various sizes and formats into the self aligning feeder and press start.

No matter what your needs are, the IS-5000 will process all your mixed mail. It's that easy: sorted, sealed, metered and ready to go.

Never run out of ink

Keeping your mail moving couldn't be easier with the Low Ink Alert feature that notifies Neopost when your cartridge gets low.

Our Customer Service Centre will give you a courtesy call to let you know you are almost out of ink.

Reordering online is simple and fast, and with the Click'n Snap design, changing cartridges has never been easier.

Powerful, Dependable

Cost Savings

New ink and printing technology provides maximum return on your investment.

Say good-bye to the additional consumable costs of print heads. Every IS comes standard with a permanent print head designed to last the life of the mailing system.

1. Differential Weighing Technology delivers the exact postage for oversize and mixed size items

2. Height-Adjustable 5.7" Colour Touch-Screen moves backwards and forwards, swivels 360° to adjust to any hardware configuration or work space

3. Integrated Automatic Label Dispenser

4. Self Aligning Mixed-Size Mail Feeder provides reliable processing of mixed-size mail without the need to presort your mail

5. iWeigh Dynamic Scale automatically weighs and measures mail at up to speeds of 150 letters per minute

6. Integrated Print Head designed as part of the mailing system and guaranteed to last the life of the system

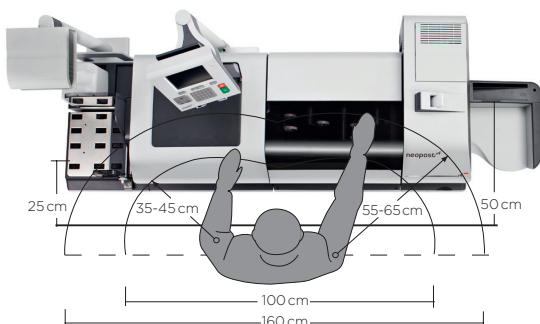

Simple, ergonomic operations

We've talked to our customers and designed the IS-5000 to be as ergonomic and easy to use as possible. All functions are controlled from the same area of the system, creating a compact and comfortable work space.

The IS-5000's flexible design allows operators to adjust and place components within a arm's reach, thus minimizing the required range of motion and providing optimal workflow and comfort.

- The flexible, intuitive Control Panel moves backwards and forwards and swivels left and right to provide a comfortable working environment for users of all heights.
- A dedicated work space under the Control Panel gives users an additional area for preparing items for processing.
- Combine with a Neopost MailStation table to achieve the highest level of operator comfort and efficiency.

Specifications

Speed (Batch Processing)	Up to 300 letters per minute

We've Got You Covered

To guarantee your organization's increased efficiency and effectiveness, we offer MailCare, a suite of Mailing System service packages based on comprehensive, long-term support that will keep your IS system and your business running smoothly and efficiently.

Each MailCare service plan is a uniquely integrated service and support solution that allows you to choose the level of service and support you need at a price that suits your budget.

With no hidden fees, MailCare keeps service and support simple while maximizing the value of your investment.

Why Choose Neopost?

Neopost is a world leader in mailing solutions and a major player in digital communications and shipping services.

Our innovative solutions help guide and support organizations in how they send and receive communications and goods, helping them to better connect with their customers.

In today's world of increased dependence on technology, Neopost believes that one thing remains unchanged: the real engine for success is people. Because it's people who drive business forward. Neopost appreciates and nurtures the human side of business and thinks of its customers as individuals, not as organizations.

We believe in creating partnerships based on trust in order to meet customers' changing needs.
